Cast Aluminium Outdoor Lighting — Manufacturer Direct

About Padma Enterprises

Founded in Aligarh, India — the global capital of locks and hardware — Padma Enterprises has been casting outdoor lanterns and architectural lighting from premium aluminium alloys for over two decades.

Every piece is sand-cast or pressure die-cast in our own facility, then hand-finished by skilled craftspeople. We supply architects, interior designers, contractors, and homeowners across India and the Middle East.

Our lanterns blend traditional silhouettes with engineered durability — maintenance-free and suitable for India's full climate range, from coastal humidity to dry northern plains.

We manufacture and supply direct, cutting out middlemen and passing those savings to our customers without compromising on quality.
